- Attention to Detail
- Critical Thinking
- Self-Motivation

About Me

I am a dedicated and detail-oriented Bachelor of Science in Information Technology student, currently in my 4th semester at Air University. With a strong foundation in programming, web development, and database systems, I am eager to apply my technical skills in a professional internship environment. My skill set includes C++, HTML, CSS, Bootstrap, SQL, NoSQL, as well as practical experience with tools such as Cisco Packet Tracer and Proteus. I am committed to continuous learning, effective teamwork, and contributing meaningfully to organizational objectives.

ACADEMIC PROJECTS

- Inventory Management System – Developed using C++ for basic CRUD operations.
- Responsive Personal Portfolio Website – Designed using HTML, CSS, and Bootstrap.
- Network Topology Simulation – Configured LAN/WAN setup in Cisco Packet Tracer.

RELEVANT COURSEWORK

Data Structures & Algorithms, Database Systems, Web Development, Computer Networks

ADDITIONAL INFORMATION

- Keen interest in software development, database management, and network simulation.
- Strong analytical mindset, teamwork skills, and passion for learning new technologies.
