CNIC: 82203-7562393-1

Date of Birth: 17 July 2005

Career Objective

Motivated and technically skilled Information Technology student (4th semester, Air University Islamabad) seeking internship or entry-level opportunities to apply and expand my expertise in software development, database systems, and web technologies. Known for strong presentation skills, teamwork, and hands-on experience in multiple academic projects.

Technical Skills

- **Programming Languages & Tools:**
 - C++, OOP, Data Structures
 - SQL & NoSQL Databases – MongoDB
 - Web Development: HTML, CSS, Bootstrap, JavaScript, Angular
 - Design & Documentation: Canva, MS Word
 - Excel
- **Conceptual Knowledge:**
 - Software Engineering
 - Information Security
 - Information Technology Infrastructure
 - Business and Technical Writing
 - Functional English

Projects & Academic Work

- Developed full-fledged academic projects for C++, OOP, Data Structures, and Databases (SQL & NoSQL)
- Created responsive websites using HTML, CSS, and Bootstrap
- Developed MongoDB-based data storage systems for backend logic
- Designed interactive UI/UX prototypes in Canva and Frammer
- Built dynamic web apps using Bubble.io without code
- Delivered presentations on technical and academic topics, improving communication and confidence

Soft Skills

- Excellent presentation and public speaking skills
- Effective written communication through academic writing tasks
- Collaborative team player with project experience
- Quick learner with an adaptive mindset
